••THE YEAR BOOK FOR  
•1920-21 •••• PUBLISHED••  
BY THE SENIOR CLASS  
•OF PETOSKEY HIGH SCHOOL•  
VOLUME II

## Forward

---

This book contains an all too brief account of the outstanding events of the last of four happy years which we have spent in P. H. S. It tells of our successes; we have been very fortunate. It tells of our failures, for we have made mistakes. Within its covers are the names and faces of our classmates who will soon be scattered. It is more than a book;—To us it is a collection of memories which we shall forever hold dear.

## Dedication

To Miss Skong, whose zeal in her work and whose forceful personality have done much to place the Petoskey High School in its present position, we, the Senior Class of 1921, dedicate this Observer.

### OUR ACKNOWLEDGMENT.

We are deeply indebted to Mr. Haggard, Miss Skoog and the Student Body for the aid and encouragement which they have offered in the compiling and publication of this Annual; and to the School Board for its generous financial support. To these and to the faculty in general we owe the success of the 1921 "Observer."

## PRELUDE.

It was early in September of 1917 that the leader, "Patience" Lantz, called together a band of pilgrims and told them of a journey they were about to take, which would require four years if at the end they wished to be admitted to the "City of Success." These pilgrims, by nature wanderers, experienced a thrill of pleasure at the thought of such a long and pleasant journey, although a few felt the least bit of fear on starting out. Their leader gave them cheer and told them that they were expected to select a guide and assistants for each year. Immediately an election was held and "Endurance" Stone was given the honor of being the first guide.

After this, as there were many necessities that would be required on the journey, they disbanded with the order that they should all assemble early the next day, ready to start on their trip.

## THE YEAR OF VERDANCY.

This first year they spent in a happy mood, thoroughly enjoying the atmosphere of the new country through which they were traveling.

They had, nevertheless, many obstacles to overcome as well as the good times to enjoy. Some found themselves stumbling over the rocks of Algebra, or sinking into the sands of Latin and in spite of all the assistance given them, they found they must use great care if they would reach the end of their journey in safety.

To lighten their hardships, many times they were called together for an evening of amusement and once, upon encountering a Sophomore band of pilgrims, they entered into a lively conflict of words with some of the leaders, with the result that their men used the best arguments and so were counted victors.

When June came, the leader told them they might wander where ever they wished for a few weeks, but in September they were to gather again for the second lap of their pilgrimage.

## THE YEAR OF INDIFFERENCE.

After the hot summer was over, the leader called them together again and a new guide was elected. This time the honor fell to "Efficiency" Parmenter who proved most worthy and under his leadership they started out with more self assurance and it was with lighter hearts that they walked into the dark caves of Science and encountered the troublesome ghost of that ambitious man, Julius Caesar, but enjoyed the regular conversations with the French master who joined them on their way.

One great occasion this year was the gathering of all the pilgrims for a "festival" which proved to be an event of great pleasure.

All too soon the pilgrims began to weary of the long hot days and to anticipate their coming together when they would be dismissed and given the privilege of roaming at their pleasure as in the previous year. Nevertheless it was a sorrowful parting as "Patience" Lantz had been exalted to Great Leader and they knew that some stranger would be found to take his place.

## THE YEAR OF ACHIEVEMENT.

Alas! the summer passed all too quickly and "Staunch" Haggard, the new leader, called them to proceed in their pilgrimage, this time with "Prudence" Van Every as guide.

Two years of experience had made them more serious about their journey, for they realized that before them lay a rougher and harder road than they had yet traveled and they knew they must overcome all obstacles in this year, their year of achievement.

Much of the journey was marked by festivities leading up to the most joyful one when they were to be hosts to the pilgrims who were about to finish four years of journeying.

The first of these was a pageant followed by an interesting event in the form of a tribal meeting. Everyone was enjoying themselves greatly when a wandering band stole away with their frozen sweets. Great commotion was caused but the bandits made their escape.

Another enjoyable gathering was the evening spent with a wandering band of minstrels from Kalamazoo who cheered them by their stirring songs of fame and glory.

Finally as the time grew near once more to part comradeship they journeyed to a clearing in the cool, dense woods of "Forest Beach" where they met the gifted pilgrims known as Seniors. Encouraging words were spoken by their leaders and guides and after an hour or so of merrymaking, they wended their way back and in a few days were dismissed for a rest before their last year's journey which was to be—

## THE YEAR OF HEARTS' DESIRE.

With the cool breezes of September came that last but now familiar call of the leader to start on their last year of their journeyings and "Suave" Baker was the choice of the pilgrims as guide to lead them to the "City of Success."

Their experiences in overcoming the many difficulties in their three years of travel made some of the obstacles this year seem very small.

Following the path marked out by other pilgrims the little band halted in its march for an evening to jestingly act, as members of the busy world toward which they were struggling, a comedy as they called it, "It Pays to Advertise."

Throughout these years many of the pilgrims won honor by their ability in running and jumping and in games, and one, "Vivacious" Stone displayed great talent in leading the cheers by which the pilgrims inspired the runners and players to greater efforts. For these things and for their efforts in debate many of the pilgrims were honored with the emblem of the band, a large "P".

Near the end of the journey the band again halted in the welcome shade of "Forest Beach" for merrymaking where they were entertained by another wandering band who had followed them throughout their march—the Juniors.

Altogether the passing of the four years has seemed but a brief space of time and this band of pilgrims now bids adieu to those with whom they have traveled and their leaders who have so ably assisted them on their way though the "Country of Trial" into the great wide world of opportunity and service.

## On the Dead Level

---

He was an old, old man, with a long, flowing beard, and a tottering step, but his eyes were keen. He was very near the grave—in fact he was in a cemetery. He was reading the inscriptions on the tombstones—and weeping! No wonder, poor old Lang was the last of the '21 Seniors, and the epitaphs of his classmates called to his mind the possibilities which lay in his decease. He read:

\* \* \*

Here Lies  
HARRY E. VAN EVERY (1903-2003)  
"The good die young."

\* \* \*

"Here lies a man of prominence,  
Don Markle;  
He painted his head with phosphorus  
To make it sparkle."

\* \* \*

Here Sleeps KAY BAKER  
"He wrote poetry—  
But he was a man for a' that.  
He danced—  
But he was a man for a' that.  
He sang—  
And now he's a corpse for a' that."

\* \* \*

To Commemorate  
GEORGE ARTHUR PARMENTER  
"He bought a car  
With his roll of pay,  
And traded it for  
A harp to play."

\* \* \*

DONAVAN HENRY  
"He rowed a boat,  
It wouldn't float;  
He couldn't swim,  
They dragged him in."

\* \* \*

"The angels up in heaven  
Took our Walter Gilbert sweet,  
Because they needed a saxophone—  
To make their band complete."

## Junior Class History

---

On a bright morning in September, 1918, the class of '22 joined the forces of P. H. S. After the confusion and amusing mistakes of the first few days, their chaotic impression of classes and rooms and lessons gradually resolved itself into the orderly routine of classwork. From their front seats in the assembly they looked with awe at the cold, self-satisfied Seniors at the rear and thought with longing of the days when they, too, would sit there. The first class meeting held was enthusiastic, to say the least, and from its tumult the class emerged with Louis Walker as president. In December the class, represented by Louis Walker, Chalmers Curtis, and Rowan Fasquelle, lost the Freshman-Sophomore debate with a 2 to 1 decision. Later in the year the class came out as a group for the first time at a lively and enjoyable class party held in the gymnasium.

The next year they came back as the Sophomore class, infinitely superior to the Freshies below them and feeling that studying, with their fund of knowledge, was superfluous. Pleasant as this theory was, the teachers strove valiantly to dislodge it. The class meetings this year took on at least a semblance of order and in the first one Maston Spencer was chosen president. The class debating team consisting of Esther Halstead, Karl Junker, and Donovan Henry, won the Freshman-Sophomore debate with a unanimous decision. This year the class began to come out for school events. It was represented by two members in basket ball, two in the track tournament and one on the high school debating team while still another took part in the Senior play.

This year the Junior class returned fully prepared to engage in friendly rivalry with the Seniors. The class was organized at the beginning of the term with Ralph McCarthy president, Elizabeth Shoemaker vice-president, Donald Wade secretary and treasurer, and Mr. Kuttler faculty advisor. In February the class took charge of the moving picture, "The Last of the Mohicans." The excellent support of the school and city on this occasion was sincerely appreciated by the Juniors. The last of March the Kalamazoo Glee Club, under the auspices of the class, gave a pleasing entertainment at the High School. The profits from these events will furnish the funds for the annual Junior-Senior reception.

The class came out well for school activities this year. Two members were on the football squad, two were on the first team and one a substitute in basket ball, and three were members of the victorious track team. One member was on the first debating team and two were on the second team. The class was likewise well represented in the Senior play.

In the early part of the year an enjoyable party was held in the gymnasium. When the members arrived, however, they discovered the

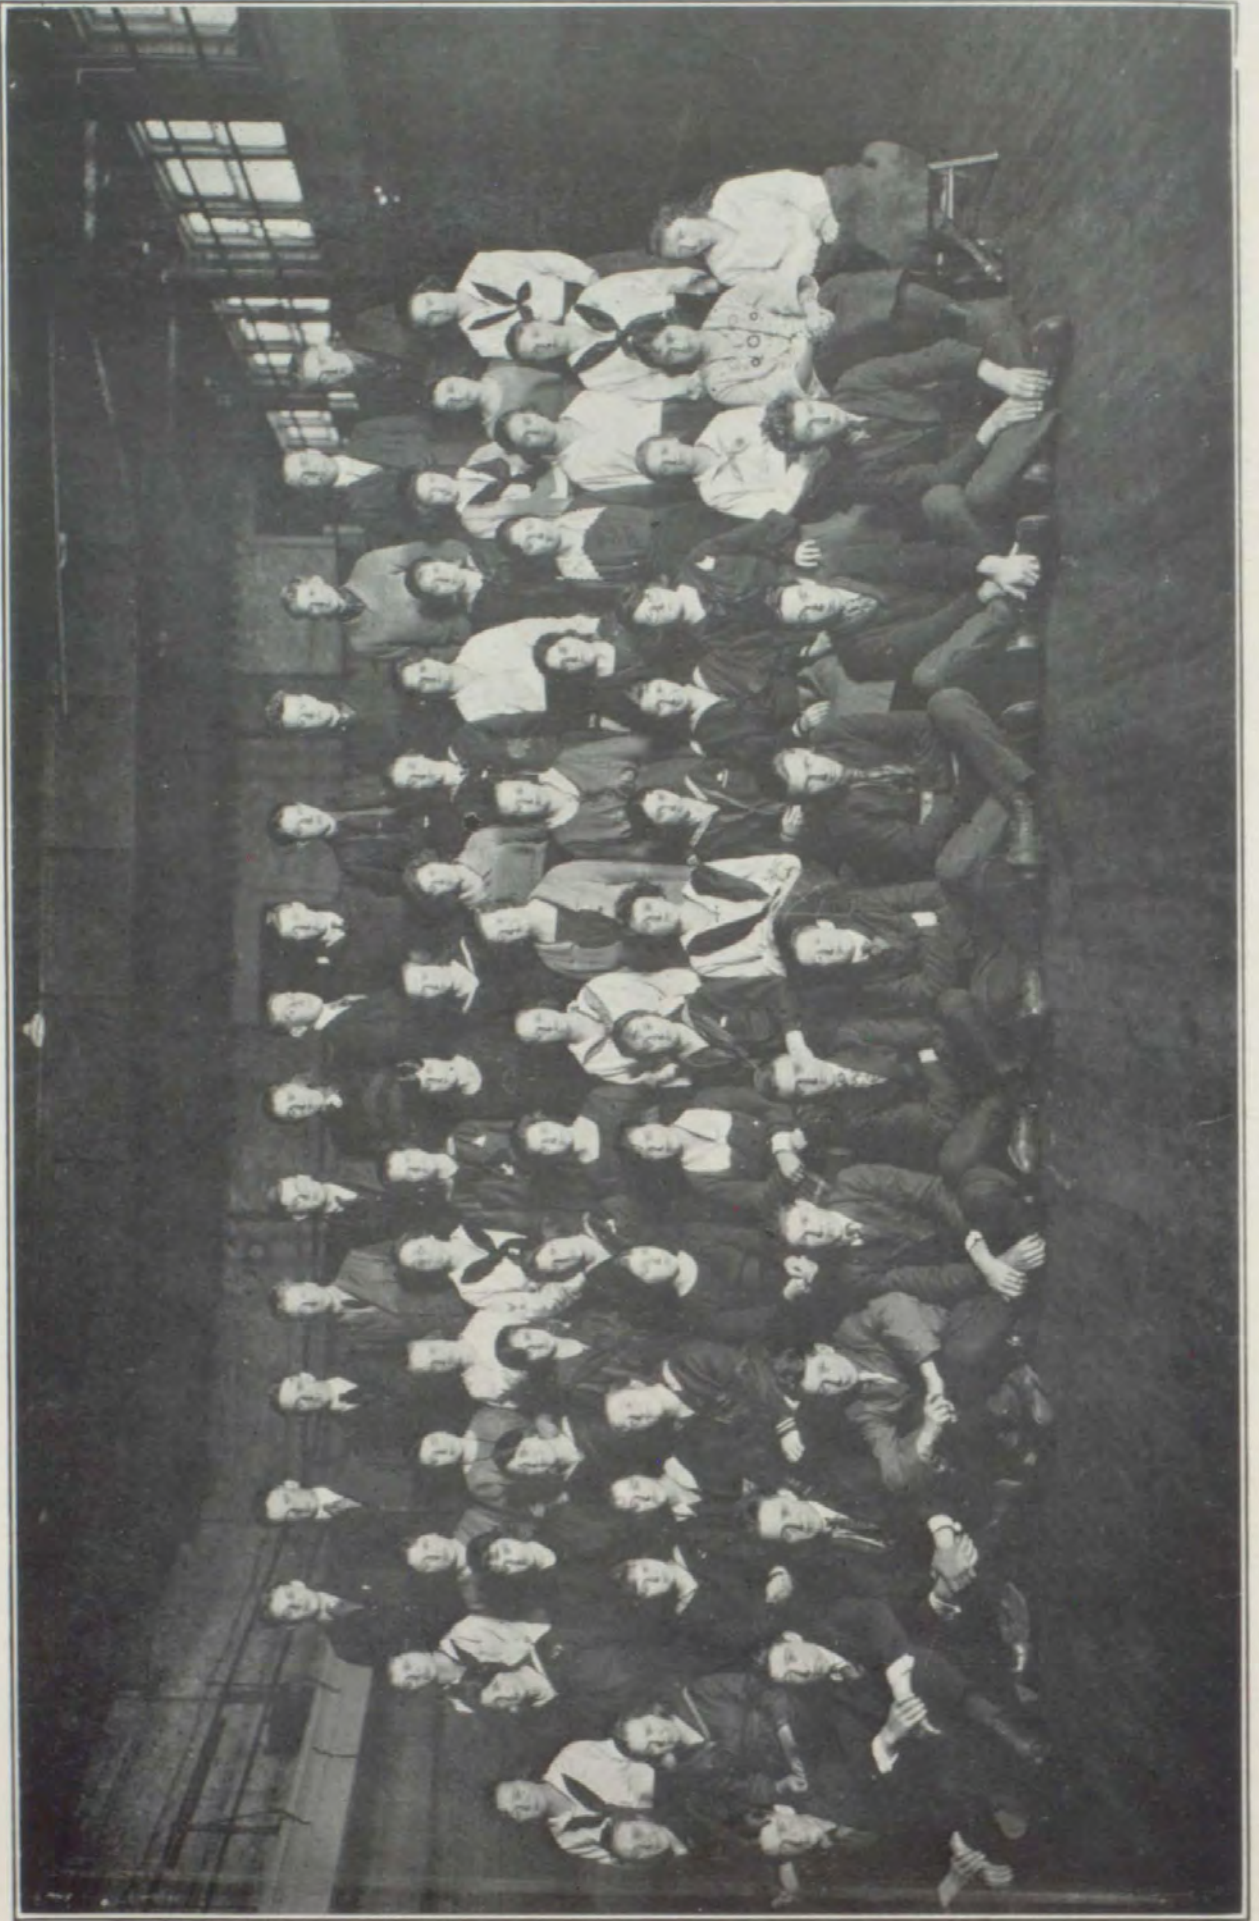

supply of ice cream had been conscripted by the needy Seniors. But later in the year the Juniors tasted the sweets of revenge when the Juniors and Sophomores won fifty-seven points to the Senior's and Freshmen's forty-seven in an interclass track meet.

Now as the school year draws to a close, great plans are being made for a Junior-Senior reception to be held at Forest Beach, where the "Friendly Enemies" of the past three years will meet as friendly friends.

## CLASS HISTORY

In September 1914, the Emmet County Normal was organized. The first faculty was composed of Miss Farnum, Principal, and Miss Niberg, Critic. Since then six classes have been graduated, each prepared to do its share in training the youth of this and neighboring counties. We, the class of 1921, entered the County Normal on December 13th with only three members in our ranks; however, this number was soon increased to eight. We at once organized our class and chose our colors, green and white, with the Lily of the Valley as our class flower.

The work proved to be much heavier than we had anticipated, and by Christmas time we were completely exhausted. We returned after the holidays confident that now life would be easier. The second semester, however, opened with a new belief and we settled down to labor in the best possible spirit.

Despite our work we found some time for other things. In order to bring our class to the attention of the Alumni, we gave a tea for them, and as quite a number were present we felt that a friendlier feeling had been established. We also had two very successful candy sales for the purpose of putting something into our empty treasury.

On January 13th, in spite of lessons, we recklessly cast study aside and thirteen of us stole quietly away and clambered into an awaiting sleigh. We were driven to a farm house where a bountiful supper awaited us.

With the Spring came many other good times. We entertained the faculty at a St. Patrick supper in the school lunch room. Miss Ball and Miss Nelson entertained the class on May 7th at the "American" and concluded with a theater party. Shortly after this, Orpha Paige invited the class to have a dinner at her home at Alanson. The first week in June the class members and their friends had an enjoyable beach party at Menonaqua.

Now that our Emmet County Normal days are over, we shall carry with us many pleasant memories of the hours we have spent together during the months of our work and play.

## The House of Desire

---

Nature and I, and the Wind and the Weather  
Dwell on the top of a Hill altogether;  
On the top of a Hill where the sky is afire  
And the windows are red in my House of Desire;  
Where the West is the color of deep cherry wine,  
From the arms of the sea, leaps the Wind into mine.

When we awaken at Dawn, my lovely one's eyes,  
Tremulous open, with wonder, surprise.  
Her cheeks flood with color, the color of rose  
And her breathing is cool as a mountain wind blows.....  
Her finger-tips fresh as the dew-drops on flowers,  
Her voice is the thrilling of birds in green bowers.

Then together we rise while the morning is still,  
On the Wings of the Wind, we sweep up the Hill  
To the House of Desire, and flood it with Light.....  
Fill it with laughter, with everything bright.  
Wind scatters the vapor of white morning shrouds  
While Weather beams down from his couch in the clouds.

At evening we four in the House of Desire  
List to the crooning of Wind on her lyre.

If you climb up the Hill at the Close of the Day,  
In the House of Desire at the End of the Way,  
Beloved, there's where you will find us together.....  
Nature and I, and the Wind and the Weather.

Margaret E. Hinkley.

## An Embarrassing Dilemma

After having introduced me to Mr. John McDonald, my uncle, before leaving the club room whispered, "Get him to talking about emeralds." So, after accepting one of his favorite cigars, which a waiter brought in, I carefully introduced the topic and settled myself to listen.

"Yes," he said, in reply to my remark, "I did see many wonderful emeralds while visiting the Egyptian mine." He puffed slowly on his cigar for a few minutes in silence, emitting great clouds of smoke and then continued, "But one of the largest and most beautiful emeralds in the world I saw, not in Egypt, but in there." He waved his hand toward the adjoining room. He hesitated and then said, "There is an interesting story connected with that stone if you would like to hear it."

"Yes, tell it by all means," I said.

So after relighting his cigar he began, "You know of course, that it is the custom of this club to have a banquet every time a new member enters. After Mr. Thomas Kent, a new member, had ridden the goat, we came up to the banquet that had been prepared. During the supper the conversation drifted from one subject to another until someone introduced the topic of precious stones. After discussing this topic for some minutes, one of the gentlemen, a Mr. Randolph, took from his pocket a magnificent emerald and passed it around for us to examine. The gem sparkled and glistened in the bright light. It was, certainly, the largest and most beautiful gem of its kind I had ever seen. The owner told us its history. Then while we were still examining the jewel we began discussing politics and other topics of the day and entirely forgot the emerald. When a half hour later the owner called for it, each man looked at his neighbor, but no one seemed to have the stone. At first we thought that someone was playing a joke on us to make us hunt for it, but as the evening wore on and it came time to go home, we realized that the stone was either lost or that some one was trying to steal it. We searched the table, floor, and chairs but without result. Then someone suggested that we be searched. We all agreed except

Mr. Kent, who arose and said, "Gentlemen, I refuse to allow my person to be searched by anyone, for reasons which I refuse to state."

It was certainly a nice situation. Mr. Kent was our guest and so of course we could not search him without his consent; and yet almost all of us were sure that he had the stone, because what other possible reason could he have for refusing? We tried to explain that no harm was meant, that the search was only to clear the atmosphere, but Mr. Kent still declined to subject himself to a search. Everyone sat in silence. The situation was becoming unpleasant when Mr. Kent again arose and said, "I have refused to be searched. The gem has certainly been lost yet we have hunted throughout the room and it has not been found. Everyone has consented to be searched but me. I have refused, saying I had a reason, and I have. Now I am going to show you the reason." He paused and put his fingers in his waist coat pocket. "I am going to show you the reason," he repeated, "and let you form your own opinion." He drew his fingers from his pocket and held them up to the light. Between his thumb and forefinger was an emerald. We stared, and he handed it to the man on his right who took it, examined it, and passed it silently on to the next man. Each of us in turn examined it. All remained silent until it had been passed around the table. Then everyone laughed when the man sitting next to Mr. Kent on the left, gave the stone back to him saying, "That was a good joke, only you shouldn't have kept us in suspense so long."

"Joke!" cried Kent, drawing himself up proudly, "Sir, there is no joke. That stone is mine." Instantly the laughter was quieted. Mr. Kent continued, "There is only one stone that can compare with that in size and beauty, and that is the one Mr. Randolph lost this evening. The stone which I now hold I bought in Mexico three years ago."

There was absolute silence until our president arose and said, "Mr. Kent, if you still claim that the emerald which you have is yours, I shall be forced to ask you to deliver up your badge. We cannot have thieves in this club."

Silently Mr. Kent removed the badge from the lapel of his coat and laying it on the table quickly left the room.

"Three weeks later," continued Mr. McDonald, "we were again enjoying a banquet when the door opened and in walked Mr. Kent. There was a startled silence as he stepped up and asked two of the gentlemen to move their chairs and make room for him at the table. The men instantly obeyed and all watched him narrowly as he carefully pushed aside dishes and silver and cautiously pulled the two sections of the table apart. "Gentlemen," he said, "the last time I stood before you I was branded a thief. I have come now to prove that I am innocent." He reached through the crack he had made in the table between the sections. While his hand fumbled in the crack, shaking a little from the excitement, there was a feeling of tenseness in the room. Every eye was riveted on that hand. The room seemed to contract and get smaller

and the very air was filled with excitement. Then he drew his hand from the crack and held it up to the light. There in his fingers was the emerald. There was a slight stir. On some of the faces was a look of relief but on most of them there was still an expression of suspicion and doubt. Next, to the complete astonishment of everyone, Mr. Kent produced from his pocket another stone almost exactly like the first, and laid it on the table saying, "There are the two stones. They are very similar. In fact they are so nearly alike that they are known the world over as the 'Twin Emeralds.' I can hardly blame you for believing me a thief when I claimed that I had a stone so near like Mr. Randolph's. I could not endure being called a thief, however, and for that reason every night for three weeks I have come to this room and searched for that stone. I knew no one else had taken it because everyone had been searched on the night of its disappearance, so I found a way to enter the building and hunted for it until last night. When I had almost given up hope of finding it, I discovered it between two sections of the table where it had fallen three weeks ago. You remember, Mr. Randolph told us that there were only two such stones in existence and there they are."

As Mr. Kent stopped speaking, our president unpinned his own badge and leaning over fastened it in the lapel of Mr. Kent's coat. You can imagine how humiliated and chagrined we felt when we realized that we had falsely accused an innocent man of being a thief. Jove! Kent was splendid when he turned and grasping our president's hand, assured us that he understood the whole thing and that there was nothing to forgive."

Mr. McDonald sat gazing out of the window, and then said in a thoughtful voice, "No, he was not guilty. It was we who were guilty of hastily accusing an innocent man."

## Better Speech Week

---

The week of November the eighth through the fifteenth was devoted to improving our use of the English language. Programs were given each day in which the students took part. Friday, Mrs. B. H. Halstead gave a very interesting talk which was appreciated by all.

One day a playlet, written by Lenore McMullen of the Commercial Department, was presented to the students.

The scene was in the office of Clarkson & Company. Mr. Clarkson, a busy business man, had put in an application for a boy to do general office work. The first applicant was a slouchy boy whose vocabulary consisted mainly of slang phrases. He was tried out but sent away without the position. The next one who applied was neat, well versed and polite. Mr. Clarkson tried him out and took him as an employee.

The cast of characters was as follows:

|                          |                |
|--------------------------|----------------|
| Mr. Clarkson .....       | Kalyd Baker    |
| Slouchy Office Boy ..... | Ralph Dean     |
| Careful Applicant .....  | James Mack     |
| Office Girl .....        | Margaret Behan |

Wednesday and Thursday were known as "tag-days." For each grammatical error or use of a slang phrase, the offender was made to wear a tag in a conspicuous place. Needless to say, the majority of the students were well decorated, and even members of the faculty were not slighted.

The purpose of the week was kept in the minds of all by the use of about one hundred and fifty posters which were made by the students of the Art Department and placed about the building.

## Honor Roll

## Senior Play

---

Backed by the splendid success of last year's play, the 1921 Seniors had no difficulty in arousing interest in "It Pays to Advertise."

Practice was begun a little later than usual, but was intensified accordingly. The event was well advertised, both in school and in the city. The fact that this play combined humor with real information proved a big drawing card, and the auditorium was packed. The new scenery left as a memorial by the Seniors added much. The play was an unusual success. It both entertained the audience and provided ample funds to pay for the scenery.

### SYNOPSIS

---

Rodney Martin's carefree young life abruptly ends when his father, Cyrus Martin, a millionaire soap king, makes a bet with his friend and rival, John Clark, head of the Ivory Soap Company, that his son Rodney will prove a better business man than John Clark's son Ellery. Cyrus Martin hires his charming secretary, Miss Grayson, to fire his son with ambition to work. She does this easily, for long ago Rodney had fallen in love with her. It is part of the scheme that she shall be discharged by Cyrus Martin and she is promptly taken on by Rodney Martin as his secretary. These two, together with a typical Broadway advertising manager of a theatre, start a soap company which is to put out the "Thirteen Soap, Unlucky for Dirt."

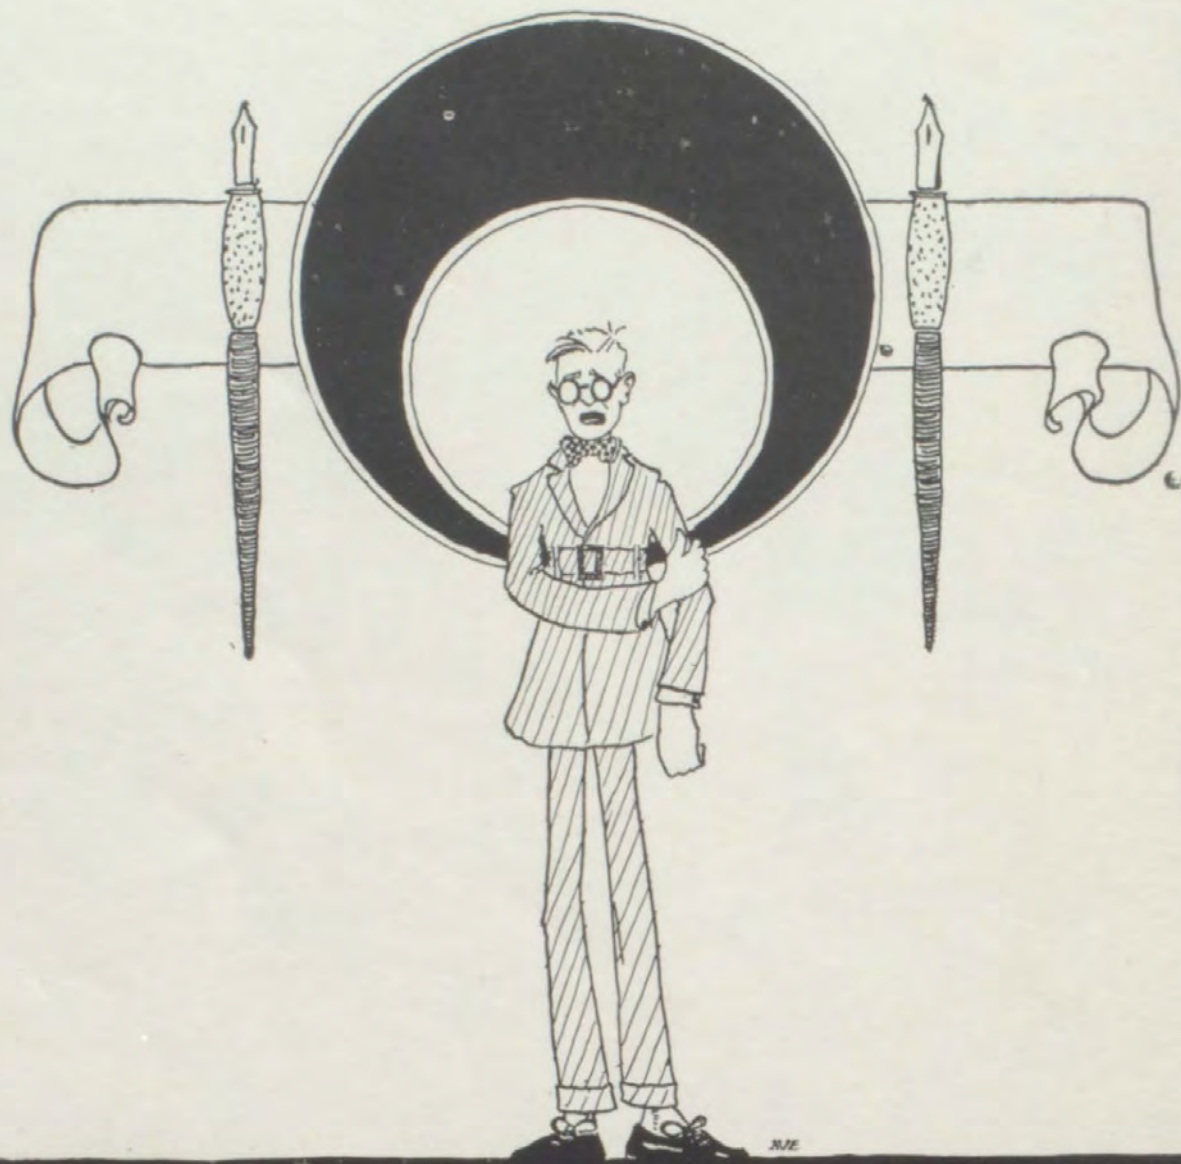

Their very limited capital is entirely expended in advertising. Bad luck pursues them in the shape of creditors, swindlers, and the refusal of help from Cyrus Martin who feels that the whole concern is a mere bubble which is bound to burst. His most strenuous objection is to their wild orgy of advertising.

Finally, however, as much to the surprise of the company themselves as to that of Cyrus Martin, the soap, which, by the way, is sold for a dollar a cake, begins to sell rapidly at Marshall Field's in Chicago. Cyrus Martin, eager to join the firm, is entirely won over to modern advertising methods, and succeeds in selling the trade-mark (which is all the new firm has to sell) for a most remarkable price. Needless to say, Cyrus Martin wins his bet and Rodney his bride.

## Debating

---

The season of 1921 witnessed one more long stride taken by P. H. S. toward her old time debating supremacy. Coached by Miss Bollenback and further advised by Principal Haggard and Supt. Lantz, the team consisting of Rowan Fasquelle, George Parmenter and Capt. Arthur Coveyou defeated six out of eight opponents. Membership in the Michigan State Debating League proved very valuable, as it supplied uniform rules, interpretations, etc., which prevented quibbling. Under the system provided by this league, each team received one point for every judge's decision and one extra for winning the debate. P. H. S. won seventeen out of a possible twenty points in the preliminary contests.

Charlevoix and Pellston, our first two opponents, proved strong, but not strong enough and lost by unanimous decisions. Christmas vacation offered the Petoskey debaters an opportunity to reverse their opinions and arguments. Immediately upon returning to school the team started for Cheboygan determined to run Compulsory Arbitration deep into the mud. The next day they returned crestfallen with but one judge's decision.

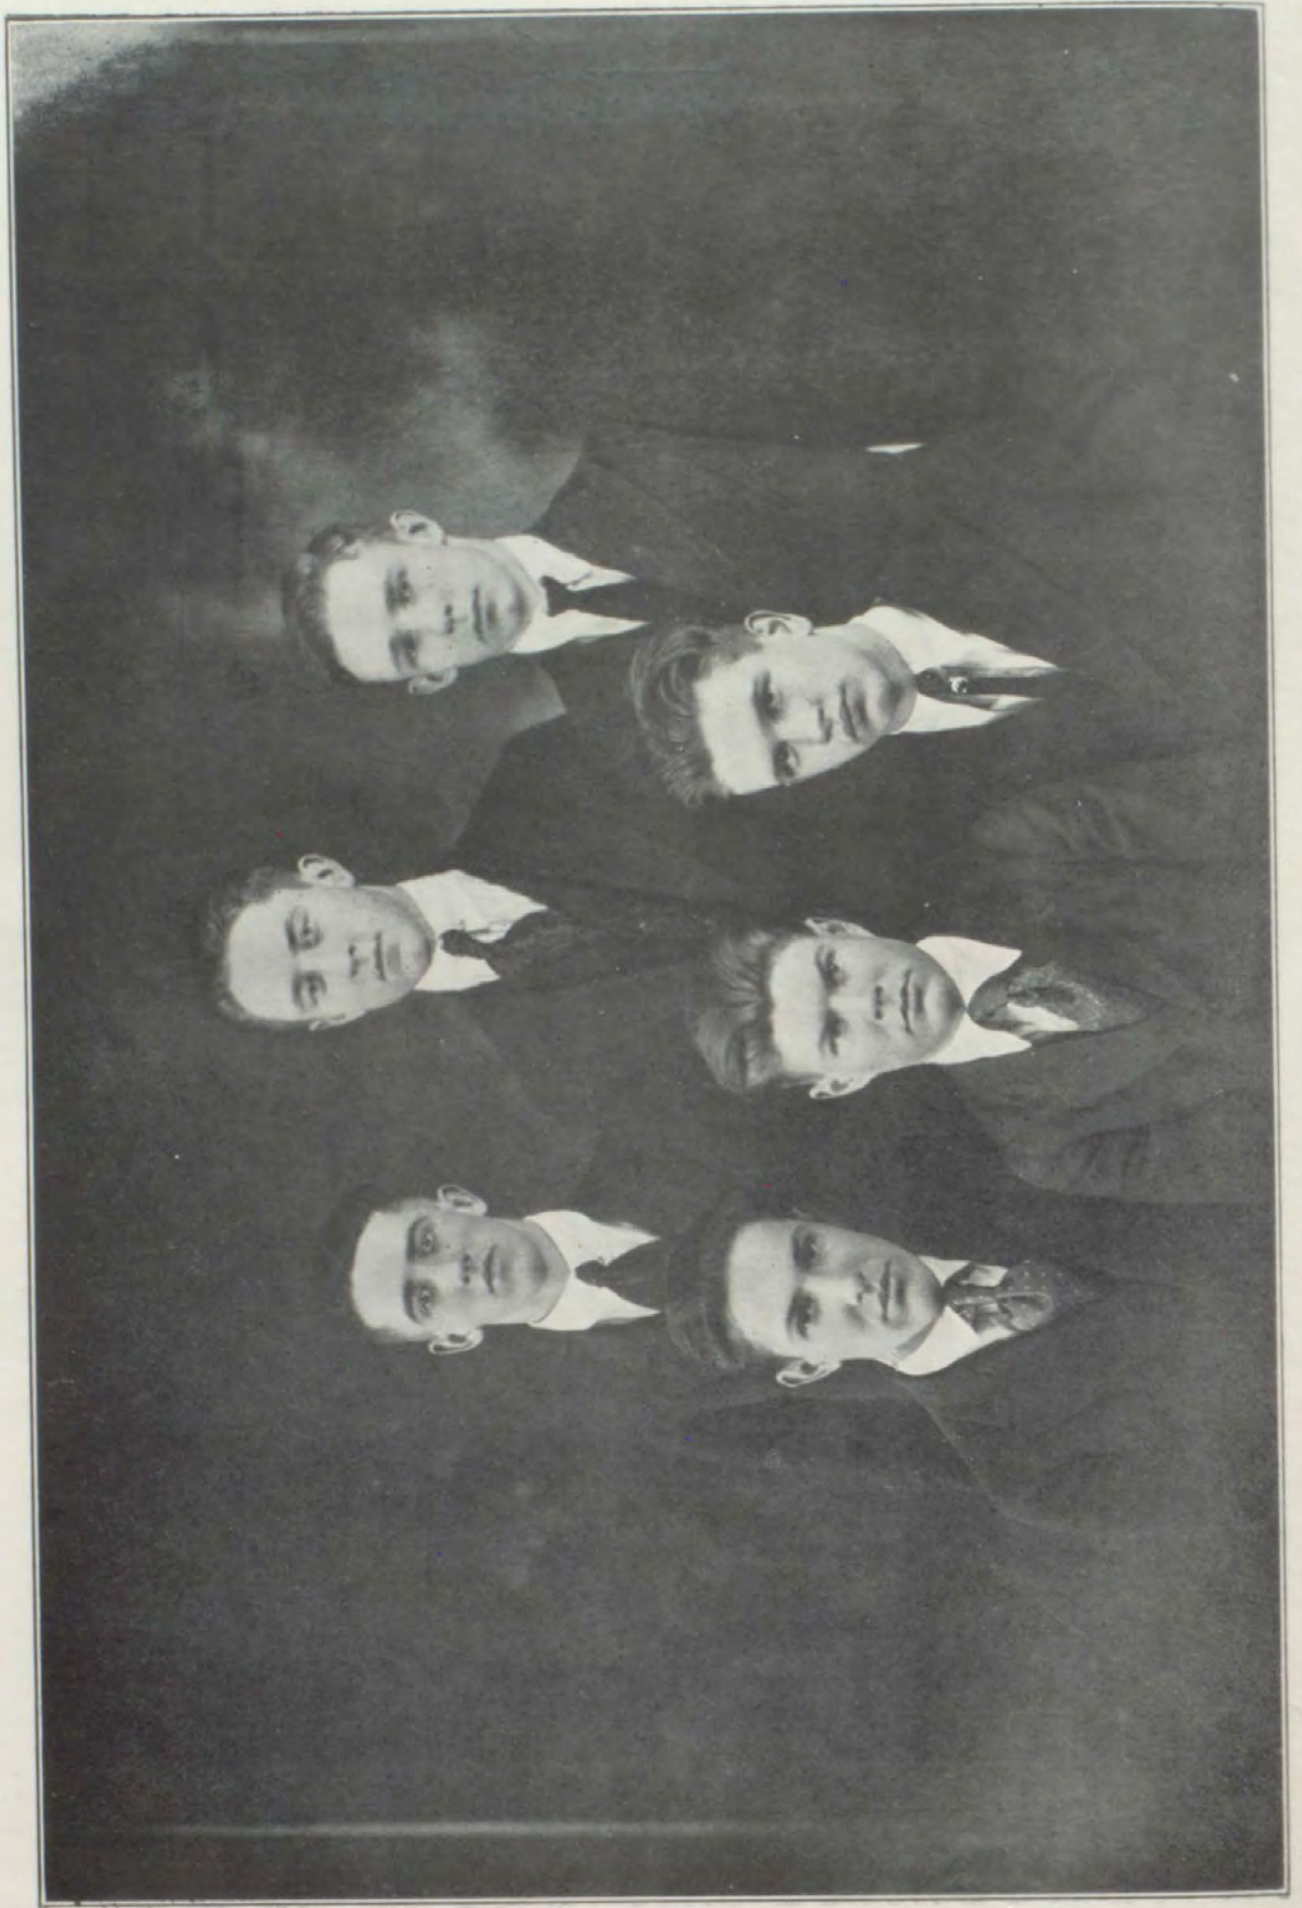

Saginaw Eastern, looking for some one to practice on, debated us outside the league, but lost by a two to one decision. A glance at our record convinced Gaylord that we undoubtedly were on the right side of the question, so we added four more points to our list, totaling thirteen. The last of the five preliminary league debates we won when we met Boyne City on our own floor. Having captured seventeen points, we were then entitled to a place in the state elimination contest. The league matched us with East Jordan, our old time debating rival. We met them on their own floor and lost a closely matched argument by a three to nothing decision and were thus eliminated from the league contest. A week later we triumphed over the Soo in the first of two debates which had been arranged for, one to take place at Petoskey and the other at the Soo.

The team consisting of Maston Spencer, James Mack and Capt. Hubert Stone, which debated Pellston in the middle of the season and lost a hotly contested decision, was to have left town on the five-forty-five to meet the Soo in the return debate. Hubert Stone, having never heard that a "rolling stone gathers no moss" neglected to roll out of bed that morning, so the debate was necessarily postponed for a day. Handicapped by the fatigue of a day's travel and speaking in the presence of a strange audience, this team again lost, but not without a fight.

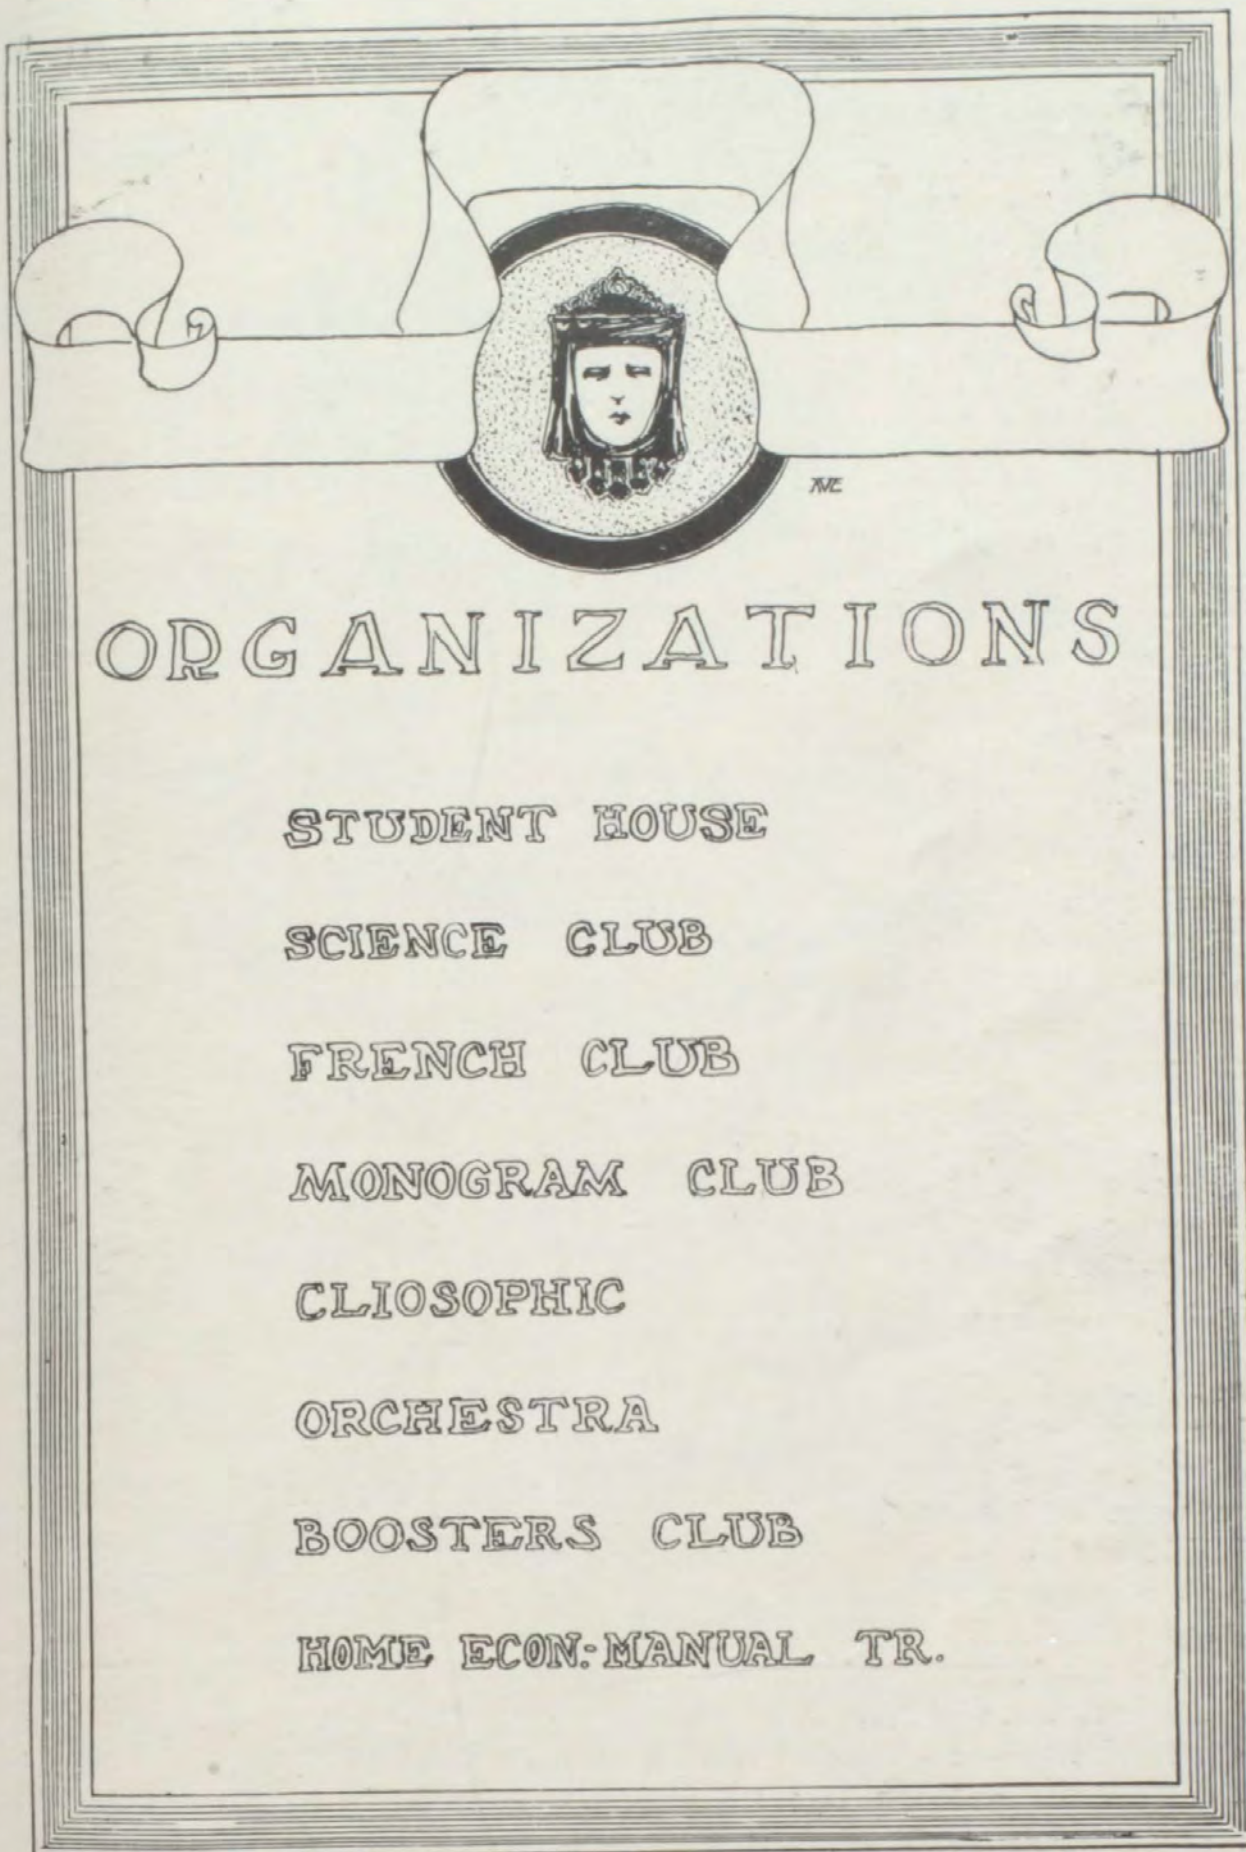

This debate closed the season; a season moderately successful but not perfect; a season which can be bettered and which the school expects the three experienced men who will return next year to improve to a hundred per cent record.

## Student House

---

The season ended this year with several more men than usual who were eligible for the banquet, and was considered a very successful session. The committee on organization consisting of Chalmers Curtis, Rowan Fasquelle, James Mack, Charles Bailey and Arthur Coveyou met in November to make arrangements for the session. This was just after the presidential election and to avoid any possible prestige of name, the parties were rechristened as the Liberal, the Conservative and the Nationalist parties. Rowan Fasquelle, Arthur Coveyou and Chalmers Curtis respectively were chosen as party leaders and in turn chose as assistant party leaders, James Mack, Clair Lawrence and Charles Bailey.

At the first meeting Mr. Kuttler was elected speaker by acclamation, Maston Spencer was elected clerk, Charles Bailey assistant clerk, and Quinton Stone sergeant-at-arms.

The members of the house are much indebted to Mr. Kuttler for his capable services as speaker and for his consideration and hard work for the betterment of the organization.

Besides having a perfect record as a regular member of the Student House, Maston Spencer has very satisfactorily filled the office of clerk. Due to his regular attendance, the office of assistant clerk has been practically a nominal position.

From the standpoint of benefit derived by the members of the house, the '20-'21 session was one of the most successful in several years. Several more members received credit than last year and there were many more allotted minutes by a great margin and the new members showed tendencies toward a bigger and better Student House for next year.

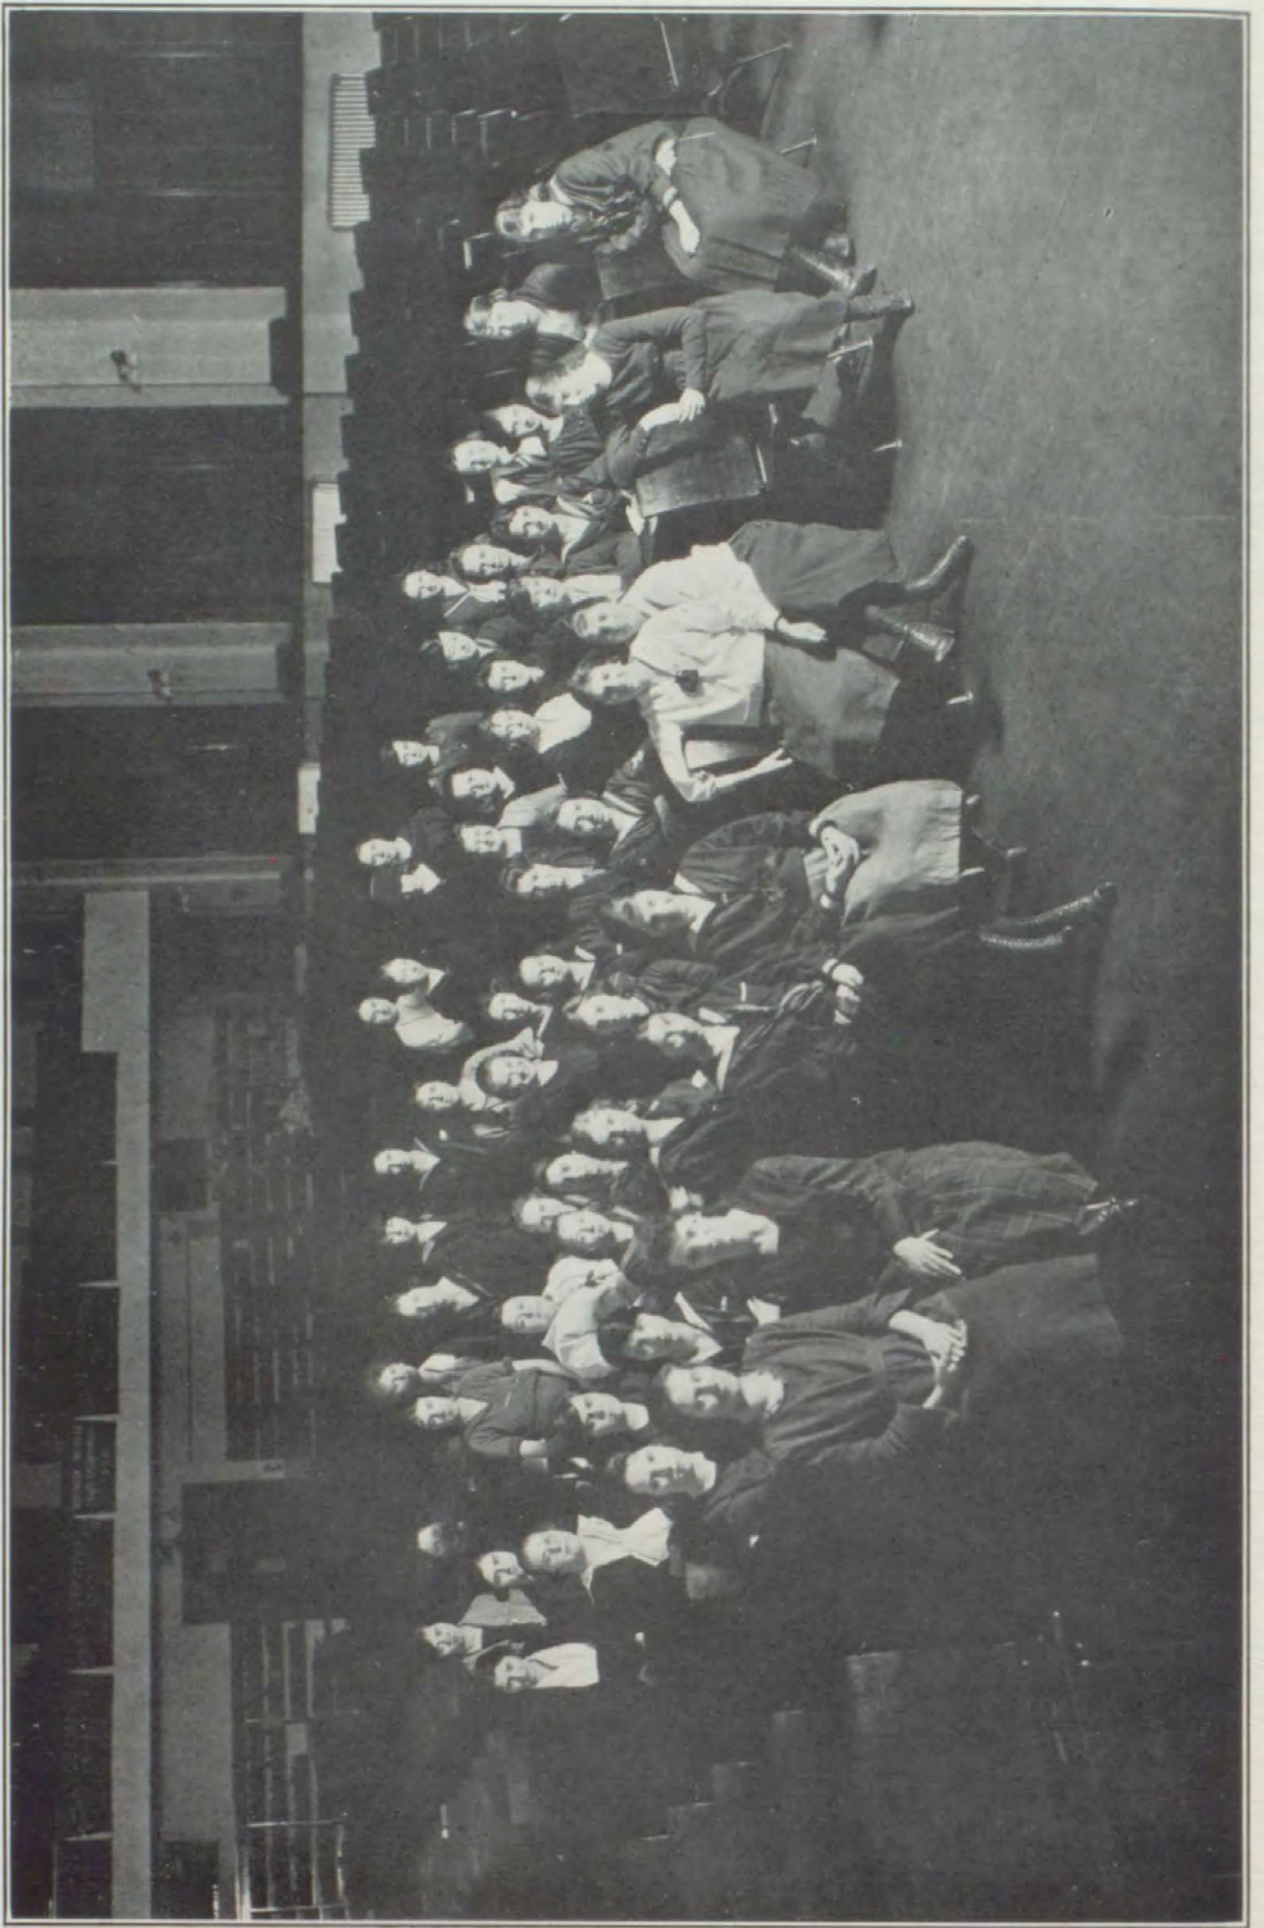

The bills which were discussed were on up-to-date questions of national importance such as the "Open vs. Closed Shop System," "Annexation of Haiti," "Municipal Ownership of Public Utilities," "Corps versus Dreadnaughts for National Defense," and the question of "Japanese Immigration." Such popular topics have given great value to all members of the house.

The annual banquet was served as usual by the domestic science department on May 12. Mr. Kuttler acted as toastmaster. He managed to crack one of his best on every member. After dinner speeches were made by the party leaders and by Maston Spencer, James Mack and Merrit Leshner. Every member pronounced the banquet a perfect success.

Taken all in all the session has been a great success and the members who regretfully leave, bestow their best wishes upon the house of '22-'23.

# Cliosophic

Officers for 1920-21:

## FIRST SEMESTER

|                           |                 |
|---------------------------|-----------------|
| President .....           | Lenore McMullen |
| Vice-President .....      | Alice Moore     |
| Secretary-Treasurer ..... | Olive McIntyre  |

## SECOND SEMESTER

|                           |                 |
|---------------------------|-----------------|
| President .....           | Arlene Van Ness |
| Vice-President .....      | Helen Fowler    |
| Secretary-Treasurer ..... | Alice Adams     |
| Faculty Critic .....      | Miss Armstrong  |

The girls of P. H. S. are justly proud of the fact that the Cliosophic Society is the oldest organization in the school.

In 1909, long before the present high school was built, a group of girls under the supervision of Miss Lucille Smith, their principal of the school, organized a literary society which they called "Cliosophic" from "Clio" the ninth muse of epic poetry and history, and "sophos" meaning wise.

Every two weeks a meeting is held in the high school assembly room and a program of music, papers on various topics and reviews of short stories and modern novels is given.

Cliosophic serves a three-fold purpose for the high school girl. It gives her some knowledge of the best literature and the authors, while the officers who are elected each semester, also learn something about parliamentary law. She becomes accustomed to speaking before an audience and is able to express herself clearly and without embarrassment. It is also an aid socially and helps her to become better acquainted with the other girls.

One of the most interesting and amusing events of the year was the "Spook" party in the gymnasium on Hallowe'en. Spirits of the famous men and women of the past honored the gathering with their presence, and brought some very interesting messages from the spirit world. Again, at Christmas time another party was held in the gymnasium, and this time the girls forgot for the evening that they were high school students and donned their small sisters' dresses, and played games around a Christmas tree.

As only the members of the Cliosophic are allowed to attend the regular meetings, the public would not know what is accomplished by the organization were it not for the open meeting which is held late in the spring. A program of music, recitations, and a short, modern play of the better type is presented. This year "Three Pills in a Bottle," one of the Harvard plays from the "47 Workshops" was presented under the management of Miss Armstrong and Miss Skoog.

## Science Club

---

Last year so much enthusiasm was shown in all the science classes that a science club of forty-seven members was organized. Only students of Botany, Biology, Chemistry, Physics or General Science were eligible for membership.

The second year of the Science Club has been a most successful one. Eighty one members were enrolled at the first meeting. The roll was divided into four sections, and at each meeting a section in its turn responded to roll call with some scientific topic of interest. This year the club followed the precedent set by various other organizations of the school, and elected its officers each semester, whereas they had formerly served the full year.

The club meets once a month, and short talks of recent discoveries and aims in science are given by various members, and motion pictures are shown. Following is an example of the programs given at each meeting:

“By Airship to the North Pole.”

“A Rocket to the Moon.”

“Lost: \$6,000 Worth of Radium.”

“The American Dye Industry.”

After the program refreshments are served and a social hour enjoyed.

The Science Club is not only an aid to the science classes, and in promoting social activities, but it also gives the members an opportunity to become accustomed to speaking before an audience freely and without embarrassment.

The officers for 1920-21 were:

### First Semester

|                      |                 |

## French Club

---

Interest in the study of French has this year been increased by the organization of the "Cercle Francais," which provides an opportunity of using the French language in a less formal way than is necessary in the regular work in the classroom.

Meetings have been held once a month at which as much of the program as possible was given in French. The songs, which were learned at the meetings, have been one of the most interesting parts of the programs.

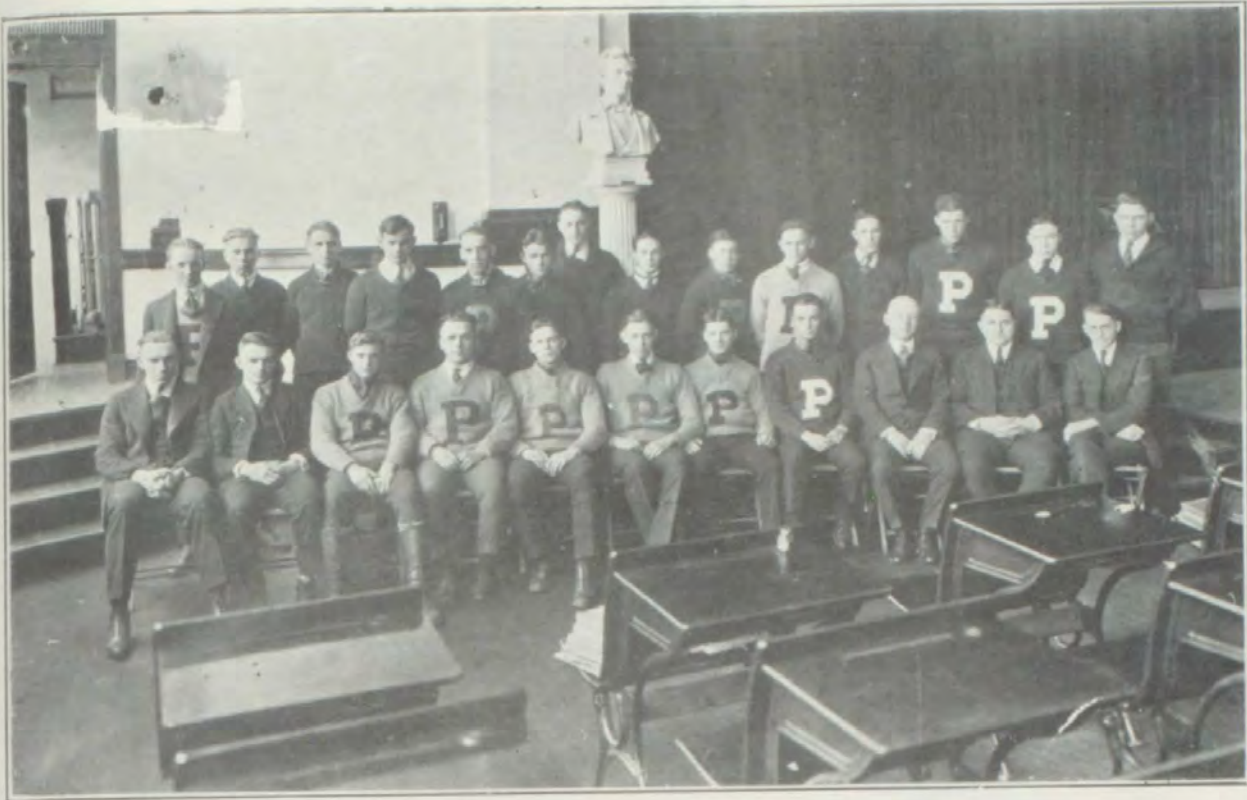

The Christmas meeting provided an opportunity for a very interesting program in which the members of the club were very kindly assisted by Mrs. Chichester and Miss Armstrong. The program which included features common to the French and American customs of celebrating Christmas was as follows:

- La Marseillaise
- L'arbre du Noel—(Recitation)
- Ou Allez-Vous?—(Dialogue) C. Wooden, G. Fryman.
- Les Amies du Petit Chaperon Rouge—(Playlet)
- Chanson francais—Mme. Chichester.
- Cantique de Noel—Old French Christmas Carol.

The officers for the year 1920-1921, were:

|                               |                  |

## Boosters' Club

---

When school started last year it was decided that some kind of an organization should be formed to inspire pep in the student body and to promote activities. The Boosters' Club resulted.

This was something new here and was tried as an experiment. But it has proved its worth and will undoubtedly continue next year.

For membership the following officers are eligible to the Club:

1. Principal of the High School.
2. Four class Presidents.
3. Four class Secretaries.
4. Three Party leaders of Student House.
5. Athletic captains for the year.
6. President and Secretary of Clisophic.
7. President of Forensic Club.
8. Editor-in-Chief of Annual, Associate Editor and Business Manager.
9. Newspaper Correspondent.
10. President and Secretary of Science Club.
11. President and Secretary of French Club.
12. Athletic Coaches.
13. Faculty Advisers.
14. Yell Leaders.

The Club is governed by a set of by-laws which can be changed to meet any situation and thus secure greater efficiency.

The Boosters' Club has supported basketball, football, debating, the locker vaudeville and every other High School activity.

The method of procedure is very simple. The vaudeville given for locker benefit will illustrate clearly the work of this organization. Committees were appointed to speak in the assembly room, others to advertise down town and in the papers. Tickets were given out to be sold by the members. With the loyal support of the student body and the townspeople the vaudeville was made a great success.

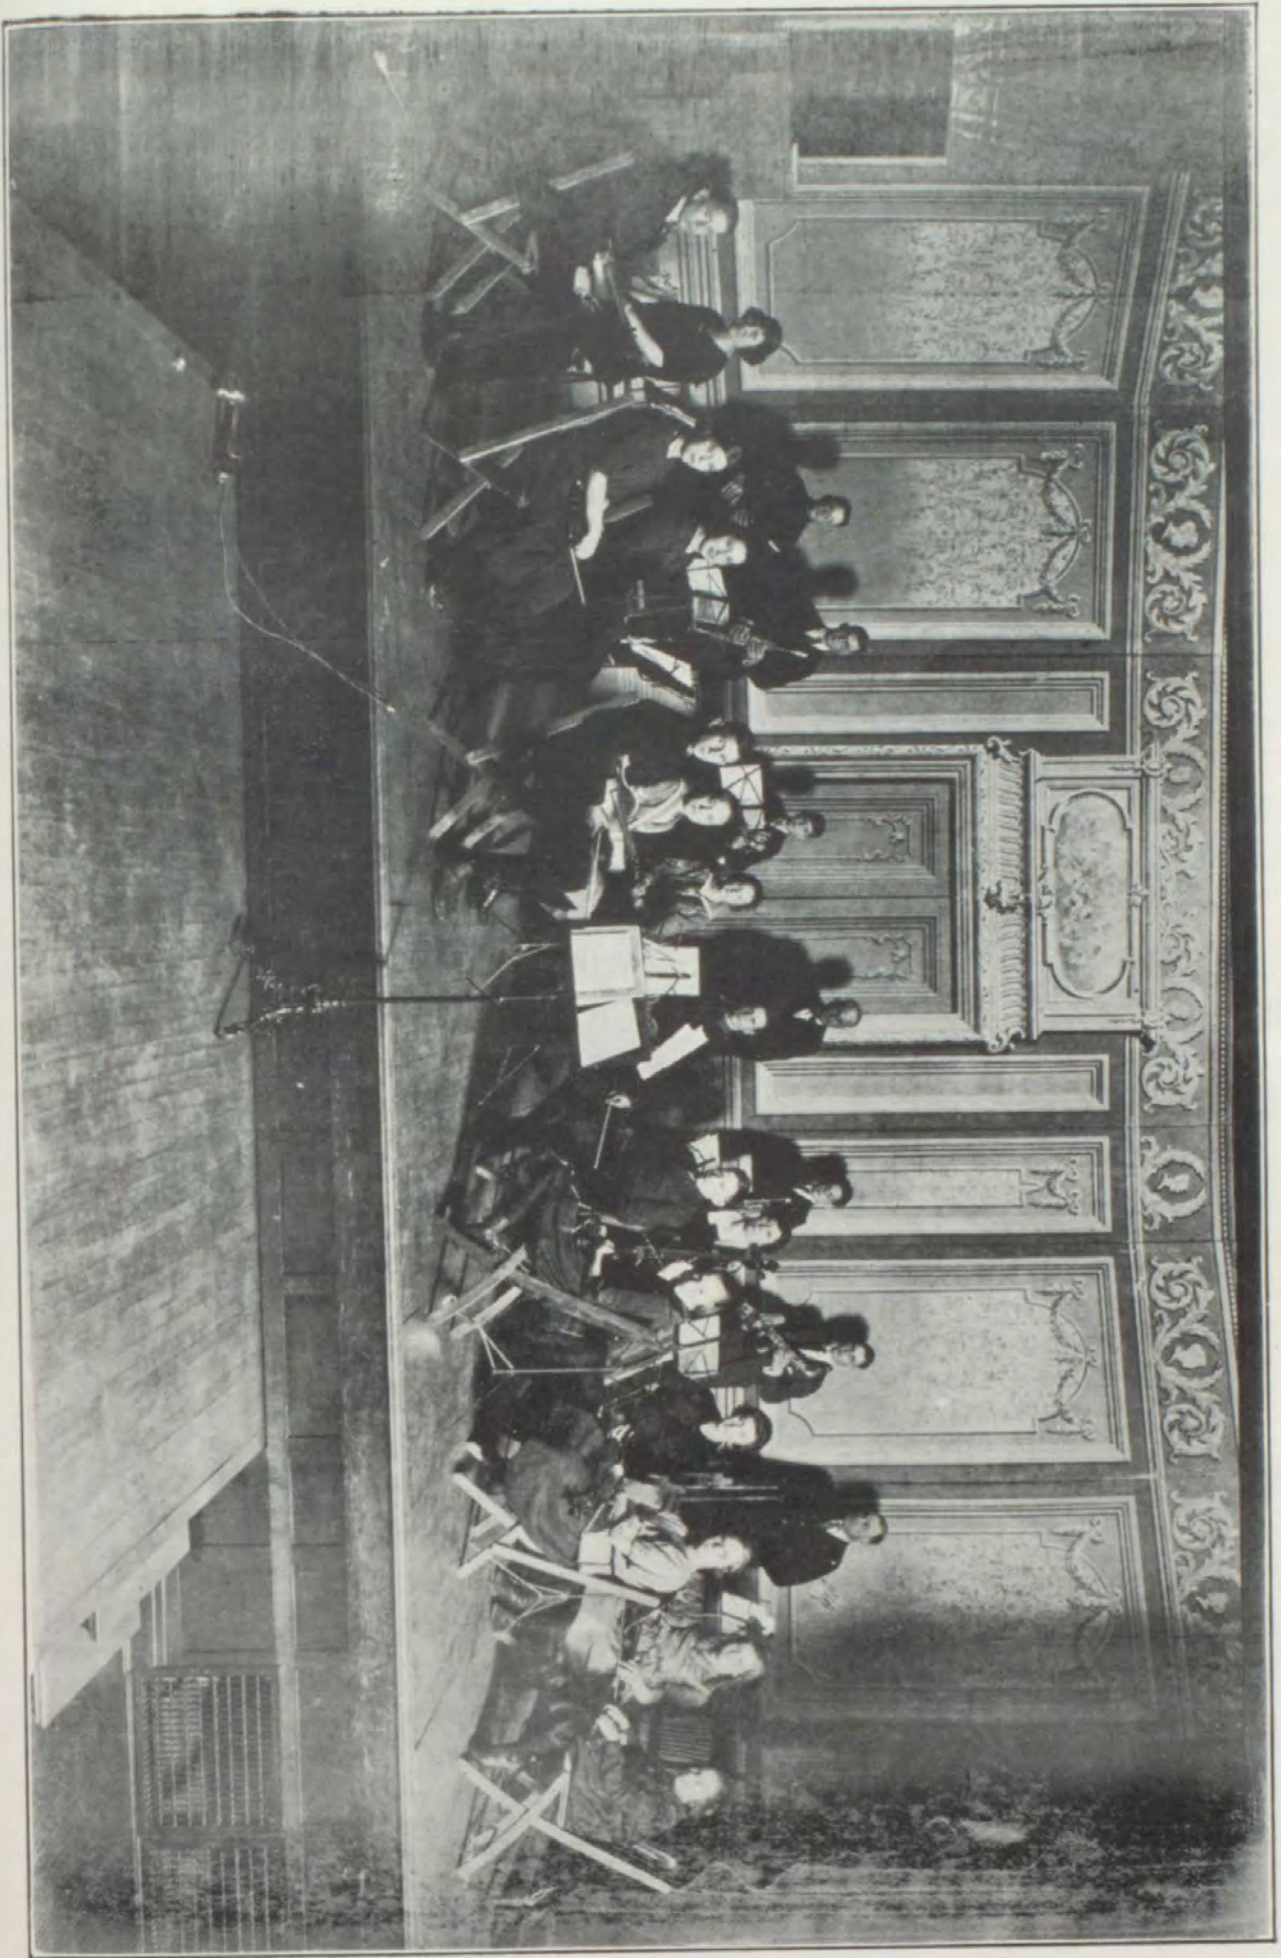

The support of the athletics was the best in years; due largely to the efforts of the Boosters' Club and the yell leaders.

A great deal of the credit for the success of the Club is due to Mr. Haggard who organized it and acted as its president.

Next year we hope to make the Boosters' Club more efficient and better able to support P. H. S.

## Orchestra

---

Under the able direction of Mr. W. J. McCullom the orchestra has this year been a real feature of the school entertainments. The improvement in the quality of its work has been very marked and is due to Mr. McCullom's policy of playing a few selections well, rather than many selections poorly, and of choosing music within the ability of the performers.

The members of the orchestra appreciate the excellent training they are receiving in ensemble playing. In turn they deserve the appreciation of the school for the earnest effort they have made and the pleasure they have given the public and their fellow students.

The members for 1920-1921 were:

### First Violins—

Leslie McCullom  
Helen Clement  
Emma Burns  
Gertrude Annesser  
Edward Mannion

### Viola—

Miss N. Beebe

### 'Cello—

Miss Ida Nies

### Piano—

Esther Curley

### Second Violins—

Dorothy Halstead  
Jacob Conklin  
Elsie Bohm  
Vera Austin  
Lucille Germond  
Irene Philips

### Cornets—

James Salisbury  
Arthur Hinkley

### Drums, Bells—

Charles Bailey

### Flutes—

Grace McCullom  
Hubert Stone

### Clarinets—

Waldo Van Every  
Kirby Krause  
Quinton J. Stone

### Saxophone—

Walter Gilbert

### Trombone—

Miss D. Sickles.

## Home Economics

---

The course in Home Economics is of great help to every girl for it gives her practical knowledge in cooking, sewing, and household management. This year a new cooking class (Cooking III) has been added to the course. The work in this class is much more intensive than that of the other preliminary classes. The girls serve luncheons and dinners to their friends and the faculty in smaller groups thus receiving more individual benefit.

The Household Art course gives the girls a fundamental knowledge of the principles of sewing. A new class (Sewing IV) has been added to the course giving the girls a better knowledge of finer sewing. This is an advanced course in handwork and fancy stitches.

The Course in Household Management is a very interesting and helpful one. The aim of this class is to teach the girl how to manage the home by a study of its' purposes, it's furnishing and it's care.

The Lunch Room Department, which was started in the spring of 1918, has been improved in a great many ways and now serves about 100 of the grammar and high school pupils. The Lunch Room Department with the help of the cooking classes planned and served the dinner and supper given to the basket ball boys during the Tournament here this year.

## Manual Training

---

The Manual Training Department offers a very interesting course for boys and nearly every boy elects one or two semesters of this work. This year there have been more pupils than usual and the first semester Mr. Martin had to turn away many boys who wanted to join his classes, so Mr. Hoffer was engaged to teach two classes of shop for younger boys.

Eight phonographs were made by the cabinet making class, besides several library tables, cedar chests, and porch swings.

The lathe, loaned to the school by the Blackmer Rotary Pump Co., has been in constant use and the boys in the lathe class do work that is decidedly practical. Parts are secured from the Pump Co. and machined to measurements, then these parts are returned to be used in the pumps manufactured by the Pump Co.

The second semester, a machine class, was organized to give the boys an idea of commercial methods of production. The work done by the boys is entirely for the school. Since the formation of the class, nine section of portable bleachers were made and set up in th gymnasium thereby saving the school quite a sum of money. Bleachers have long been needed to accomodate the large crowds that come to our basketball games.

On the whole this department has had a very successful season. Another teacher is to be engaged to help take care of the larger number that it is expected will enroll for this work the coming year.

## The Girls' Glee Club

---

The Glee Club for the present year was organized in September, 1920, under the supervision of Miss Lila Gardner. The Club is composed of twenty-two girls from the High School. The enrollment was practically new at the beginning of this year. The Club meets twice a week for rehearsal. These meetings are not only instructive but also enjoyable.

The Glee Club gives the opportunity of training the voices of those girls who are talented in singing and of those who wish to sing. In this work the girls become familiar with and learn to appreciate the better class of music. It is very necessary to have a group of singers who can be called on to sing at various entertainments. The Girls' Glee Club fill this position very well and also sing at entertainments outside of the school. During the past year, they have contributed numbers at the following entertainments: Pilgrim Tercentenary, Christmas program given by the grade children, the vaudeville given for the benefit of the lockers in the gymnasium, Mother's Meetings, several closed meetings of the Cliosophic and the open meeting. The Glee Club assisted the grade children in the Cantata "Pan on a Summer Day" by Paul Bliss at the May Festival. They also sang "Friendship" by Cuthbert Harris at the Commencement.

## The Chorus

---

The purpose of the High School Chorus is to inspire the students to sing well and to cultivate their musical appreciation. This year there have been one hundred members in the chorus. Every Monday, Wednesday and Friday the chorus has met for rehearsal under the able direction of Miss Gardner with the assistance of Miss Haynor and Miss Foote as accompanists. The music used was carefully selected from the works of well-known composers, both old and modern and was usually in the form of four-part chorus work.

The first public appearance of the chorus was on the program given in connection with the Pilgrim Tercentenary. At this time the chorus rendered four numbers:

|                                 |                     |
|---------------------------------|---------------------|
| "The Spinning Wheel".....       | Waney               |
| "The Bright Rosy Morning" ..... | Old English Air     |
| "My Native Land" .....          | Von Suppe           |
| "Anvil Chorus" .....            | From "Il Trovatore" |

The chorus also contributed a group of Christmas carols to the annual Christmas program given by the grade schools in the High School Auditorium.

At the May Festival the following numbers were given:

|                           |                              |
|---------------------------|------------------------------|
| "Largo" .....             | From Handel's Opera "Xerxes" |
| "Peasants Serenade" ..... | Faust                        |
| "June Song" .....         | Buclossi                     |
| "The Soldier" .....       | From "Erminie" by Jakobowski |

# FOOTBALL

The first football meeting in 1920 promised a successful season for Petoskey High. The healthy crowd of sixty boys who reported for practice caused some who saw them to prophesy that this season would bring one more banner into the assembly room reading "Northern Michigan Football Champions." Alas, they could not feel the presence of the invisible drawback, or hoodoo who played with us in so many games.

This little drawback was not large enough to be noticed in the first game and the varsity defeated the scrubs 30 to 6, but he grew rapidly. In the second game of the season, the one with Harbor Springs, he managed to throw away seven points, but we cared little as we had 51 to our credit.

Elated by this victory we prepared for the first big game of the season, with our old rivals at Cadillac. Although we left at 8:35 on Saturday morning, a large portion of the school was at the station to send us off. It was as fine a send-off as P. H. S. ever gave a team and the team knew it and determined to win. The little drawback had grown beyond all expectations, however, and demonstrated his ability to block progress. Ruggles carried the ball across once in the first quarter and as the second quarter was almost evenly fought the score for the half ended in our favor. In the last half our eleven men were unable to withstand the eleven men and the hoodoo who opposed them, so Cadillac was successful in two touch-downs defeating us by a score of 13 to 6.

In the two games with Boyne City, which followed, the drawback proved most active in the third quarter so that no matter how we fought the rest of the game we lost our lead in that disastrous fifteen minutes. Boyne City won both of these games, by the scores, 24 to 14, and 14 to 6.

In the interval between the Boyne City games we played Traverse City, the Northern Michigan Champions. We held them to seven points in the first half and crossed their line once, but lost the count on a technicality. By their famous forward passing they scored three times in the last half and we were forced to accept a 28 to 0 defeat.

In the next game the tide turned. After a long hard trip by car to Alpena, we defeated that town 14 to 7. They won the toss and walked right down the field for a touchdown with little or no opposition. This one, however, proved their last and we returned victorious.

The last game of the season was with Cheboygan and was played at home in three inches of snow. It was so cold that subs had to be sent in to replace the snow covered players and when the game ended almost the entire second team was in the field. Nevertheless we rolled up a score of 68 to 0.

We next arranged a game with the American Legion to be played on Thanksgiving Day, and won by virtue of superior team work. In this game Bailey ran sixty-five yards for a touchdown and we completed our only long forward pass.

This year for the first time the second team scheduled outside games, playing Onaway twice at Onaway. Though we were defeated both times, the experience will prove useful in making a championship team for next year.

The High School owes much to the coach, Mr. Kuttler, and to Mr. Heemstra for the time and effort they expended in developing the teams. Although we won only four out of eight games the total number of points scored by Petoskey was 159 as compared with 76 for our opponents.

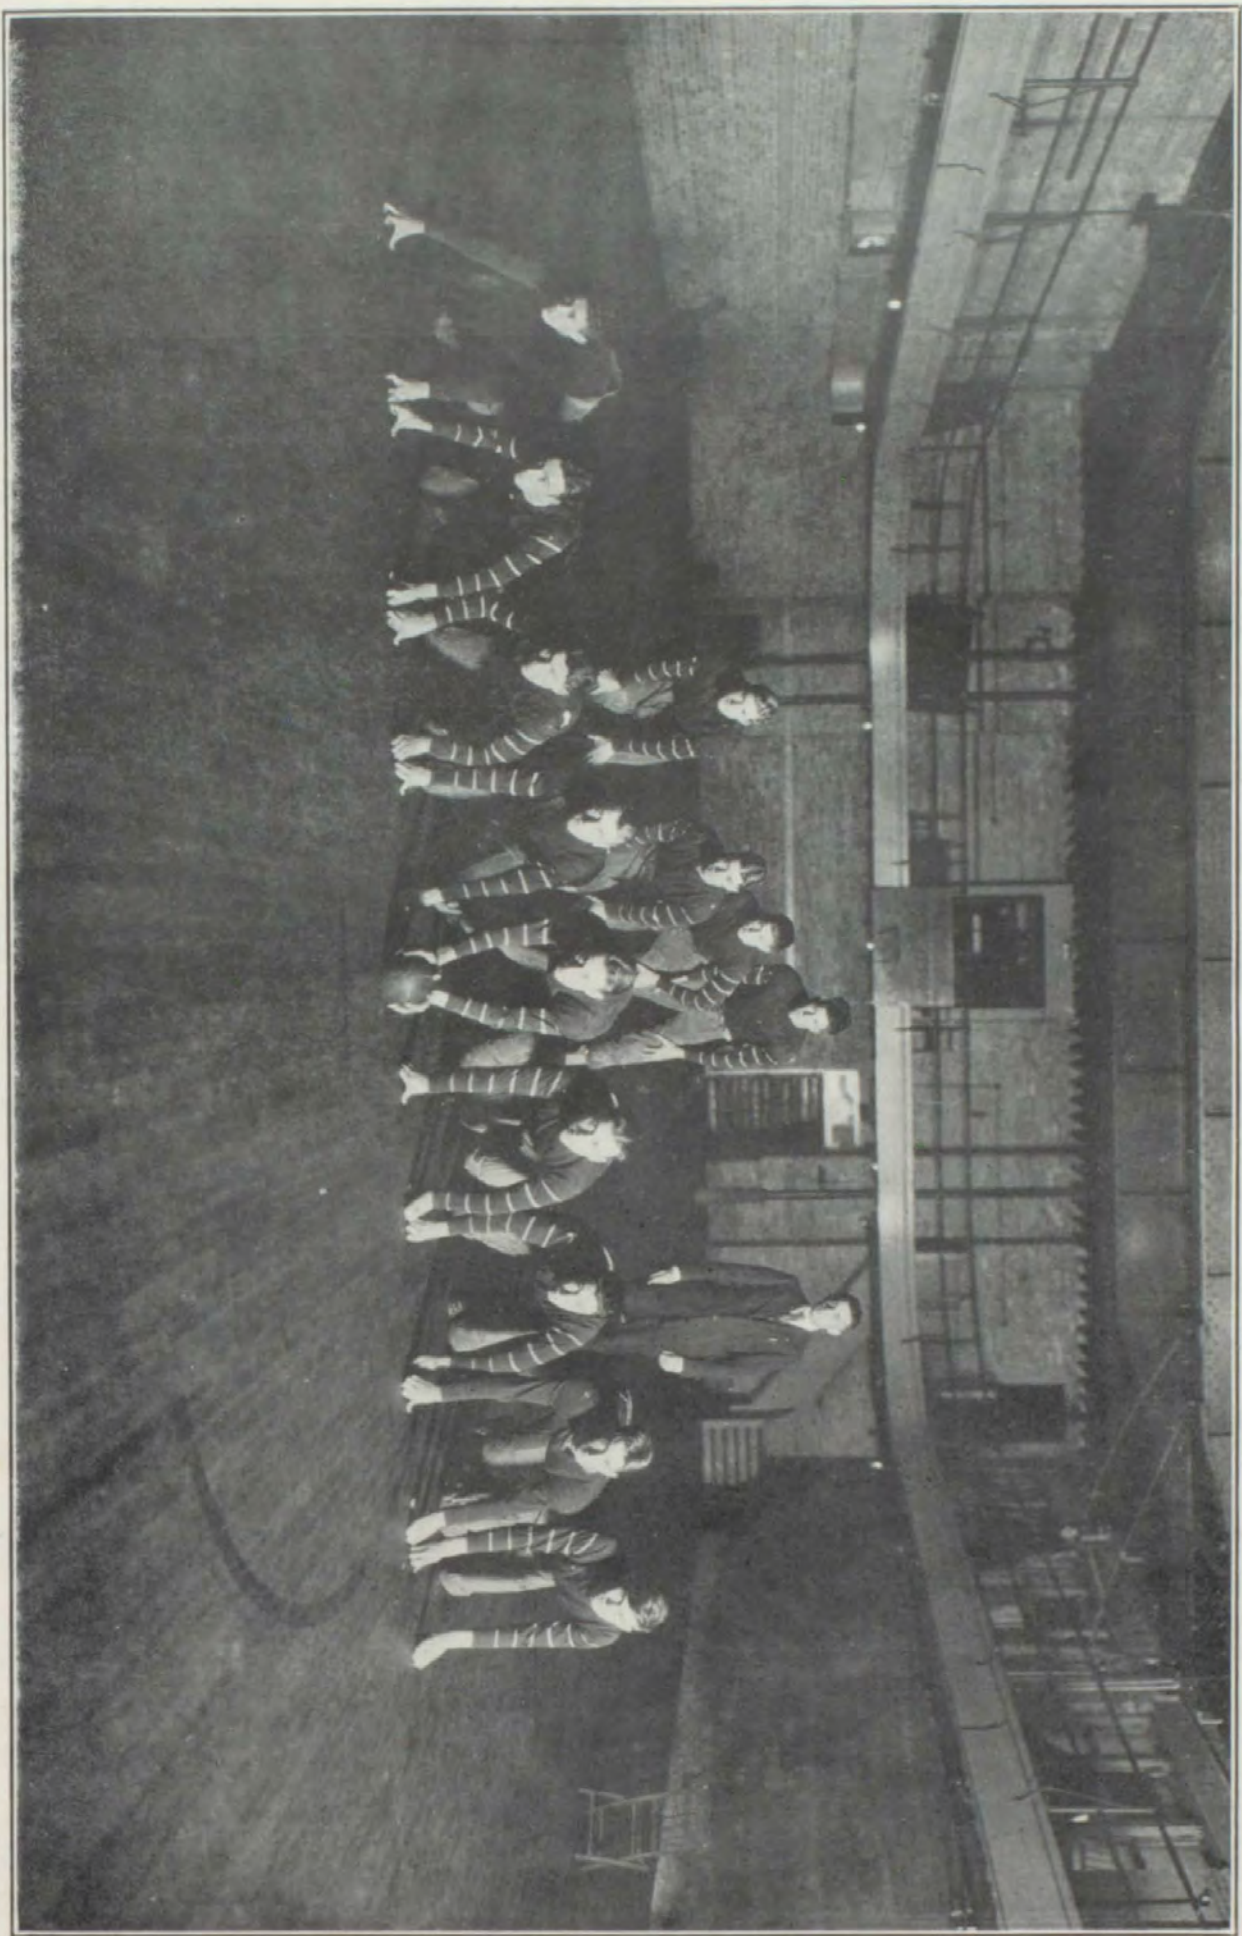

Now lower classmen, remember that although the banner we were after is out of our reach, we still have the banner for '21 to get. It can be done, but every one will have to do his best, for eight of the first team men have this year played their last game for P. H. S., so "Go get it."

The basketball standard of P. H. S. has been raised considerably during the 1920-21 season. First, our victory over Grand Rapids Union gave us a reputation in the southern part of the state. The school's schedule, seventeen games, was unusually long but Petoskey brought home the bacon with nine victories. All the games which Petoskey played at home were very close. The games with Harbor Springs and Cadillac called for overtime and most of the other games varied only a few points in the scores. At the last of the season Petoskey ran up against some hard luck and we lost four games in succession. However, with nine games won and eight lost the season was a very successful one.

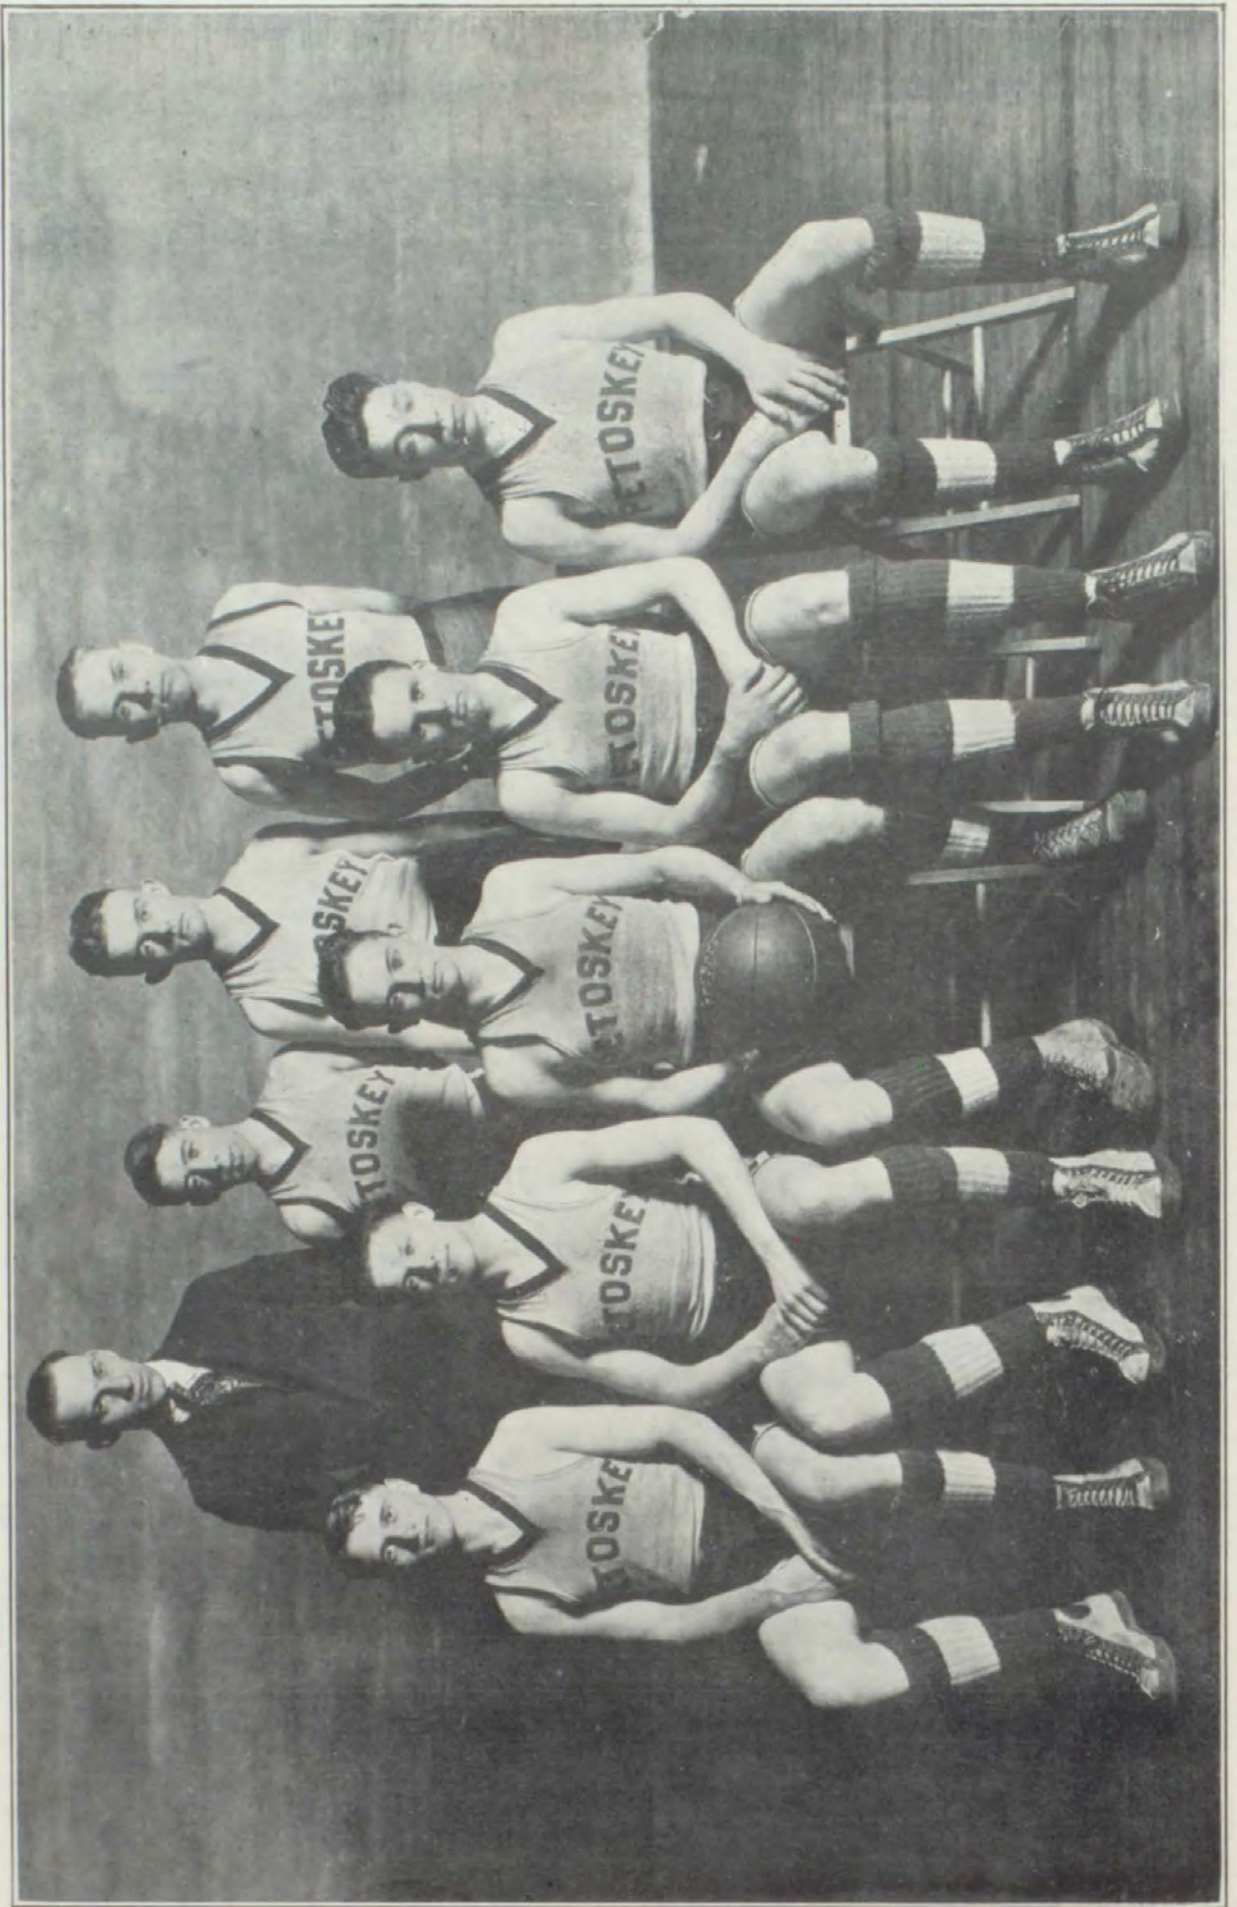

A great deal of Petoskey's success this season was due to a pair of fighting guards. Henry and Stone are to be complimented for the bulldog defense which they have displayed this season. We lose them both this year. However, we still have left a powerful offensive which will undoubtedly be a match for all comers next year.

Much credit is to be given to the coaching of Mr. Heemstra. Taking the raw and inexperienced material which he had at hand, he made the team into one of the smoothest running machines, both offensive and defensive that has stepped onto any basketball floor in the North this season.

## Northern Michigan Basket Ball Tournament

---

The second annual basket ball tournament was held at Petoskey, March 25-26. Four schools, Cadillac, Petoskey, Soo and Cheboygan, entered in class A. This was Cadillac's first appearance in the Northern circuit tournament. Among the schools entered in class B were Alba, Buckley, Charlevoix, Mancelona, Manton, Rogers, Bellaire, East Jordan, Frankfort, Gaylord, Harbor Springs, Onaway, Pellston, Traverse City (Catholic). The tournament began on Friday afternoon and ended Saturday evening when the battle for the championship of the North, took place between Cadillac, the winners of class A, and Charlevoix, the winners of class B.

Cadillac carried home this year's cup; but it was only after a bitterly contested fight with Petoskey for first honors in class A, Cadillac finishing with a one point lead.

At the end of the tournament an all star team was picked by the coaches. Petoskey was honored with having two men, Bailey and Henry, on this team. The all tournament team was made up of:

Forwards—Roach, Soo; Vanderhoff, Cadillac.

Center—Bailey, Petoskey.

Guards—Tabraham, Cadillac; Henry, Petoskey.

Prizes were given out to the best all around player in the tournament, the highest point winners in classes A and B, and to the best all around Petoskey player. Vanderhoff of Cadillac, was picked as the best all around tournament player; Henderson of the Soo, was the highest point winner in class A, and Gunderson, of East Jordan, in class B. Henry was picked as the Petoskey player of most value to his team.

The people of Petoskey opened their homes to over 136 of the players for Friday and Saturday. Financially this tournament was also a great success.

As a result of winning second place in this tournament the home team went to the state tournament at Lansing. At this tournament they ran up against one of the hardest teams, Detroit Central, at the start and were defeated 19 to 5.

## M. A. C. Meet, 1920

---

In the spring of 1920 Petoskey had for the first time in several years a first-class track team. Following the decisive victory won in the Northern Michigan meet, Mr. Kuttler selected five men to represent Petoskey at the state meet in Lansing, where they won the Class B championship. They also captured the relay cup and placed seventh in the Class A meet.

The men who made up this team were: McCarthy, Ruggles, Bailey, Hamill and Henry. Of these five, Henry, Bailey and McCarthy are available for the 1921 season.

## 1921 Track

---

Again Petoskey High School carried away the honors in the Northern Michigan Track Meet. Though there was more real competition this year than last, no visiting team was able to successfully cope with Coach Kuttler's strong, speedy, well-balanced track squad. Petoskey took first with 52 points and Cadillac followed with 28.

Kelly, of Cadillac, was the highest individual point winner of the meet, and Bailey was the highest point winner for Petoskey.

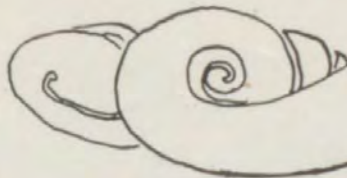

The following men received their track letter: Henry, Bailey, McCarthy, Harold George, Madison, Thomas, Tillitson and Parmenter.

Henry, Bailey, McCarthy, Madison and H. George were sent to the state meet at M. A. C.

### THINGS NEEDED IN P. H. S.

1. Button hooks for spats. So many of the girls hit school about eight bells with their ankle mufflers dragging.
2. A maid for every woman in the house. It's so discouraging for the boys to go to classes and see one of the girls with her lips on crooked and a nude ear sticking out.

#### For the Freshmen.

1. Trouser weights to endeavor to effect a union between the pant cuff and the shoe tops.
2. A play room with swings, slides, sand piles and kiddie cars.

#### For the School in General.

1. A radiator under every class room bench.
2. Winter flannels for the statuary.
3. A course in home brew and the disposal thereof two hours on Saturday night, from ten to twelve.
